Swimming Pool Pump

titan2 EcoVS

Swimming Pool Pump

For a detailed spare listing go to www.baracuda.co.za

The Baracuda Titan 2 ECO VS swimming pool pump was developed with the primary objective to save the consumers money on electricity by using an adjustable variable speed motor. This new user friendly programmable variable speed electrical motor consumes far less electricity at lower speeds when compared to single speed swimming pool pumps. The Titan 2 ECO VS swimming pool pump is designed, tested and manufactured in South Africa, for Southern African conditions, using modern production methods and extensive quality assurance.

KEY PRODUCT FEATURES & BENEFITS

- Adjustable variable speed drive motor
- Programmable 3-setting motor controller
- Save on your electricity bill
