The Baracuda Titan 2 SS range of swimming pool pumps was developed with the primary objective to save the consumer money by reducing the electrical consumption of the motor. The new IE2 high efficiency electrical motors consumes less electricity, but still delivers the high flow rates needed to reduce the overall run time of the swimming pool to achieve optimum filtration in a shorter period. The Titan 2 SS range of swimming pool pumps are designed, tested and manufactured in South Africa, for Southern African conditions, using modern production methods and extensive quality assurance.

## KEY PRODUCT FEATURES & BENEFITS

- High efficiency IE2 electrical motors
- Peak flow rates at lower energy consumption
- Save on your electricity bill

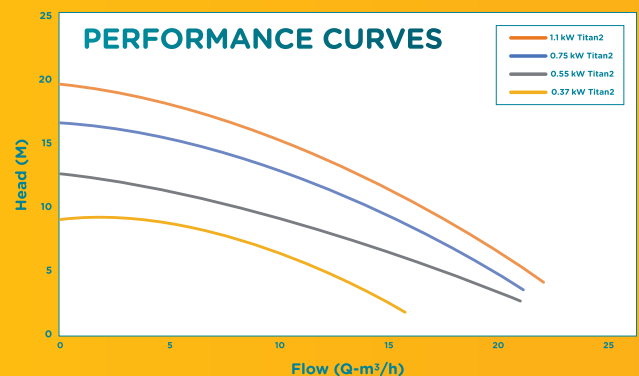

## APPLICATIONS

For residential swimming pools and spas only

- In-ground pools
- Above ground pools
- Leisure spas
- Solar pool heating
- Water features

## WHY CHOOSE THE BARACUDA TITAN 2 SS SWIMMING POOL PUMP?

- High flow rates
- Electricity savings
- Easy to operate
- Large pump basket
- Easy opening screw lid
- Supplied with unions
- 3/4" 6-bar ceramic shaft seal
