POOL & SPA PRODUCTS

FOR CLEAN, PURE AND SILKY POOL WATER, JUST ADD SALT

Your pool is your backyard oasis. Now, you can turn it into a spa-like experience with crystal-clear water that feels smooth and silky to the touch.

With the Q series chlorinators from Quality Pool & Spa ordinary table salt is converted into pure chlorine safely, effectively and automatically.

You'll be able to see and feel the difference.

EFFORTLESS CHLORINATION

Electrolytic chlorine generation is the most convenient way to keep your pool clean. Simply adjust the control to achieve the optimal level of chlorine. The Q series Chlorinator does the rest, automatically producing a steady stream of pure chlorine to help keep your poolwater clean, clear and free of bacteria and other contaminants.

What could be easier?

PURE CHLORINE. NONE OF THE DRAWBACKS

No more buying, carrying, storing or handling chlorine. No more spills, odor, stinging eyes or irritated skin.

Easy operation
Choose from one of five sanitizing levels. Push the button and you're done.
Intelligent automatic reverse cycling helps prevent scale buildup.

Available in two model sizes to fit the chlorine needs of any pool.

One year manufacturing defects warranty.

Visit your local Quality Pool & Spa dealer who will help select the perfect fit for your pool.
